TRENDSS Daily Course Description

Skills Discovery

It's not just about career decisions... it's also about knowing who you are, learning new phrases for your résumé and interviews, building your résumé, exploring transferable skill options and possible employment transitions. CalJobs Online Career Exploration will be introduced.

The Job Hunt Begins

5 + WAYS TO LOOK FOR A JOB

Discussion of the importance of organizing your job search. Discover the most effective job search methods. Develop a strong networking inventory and cold calling techniques.

MS Word 2010 Basics - & Create a Calling Card:

MS Word 2010 Basics is a **Prerequisite Prep Class for the Résumé Lab**. Learn some basic Microsoft Word 2010 functions that will allow you to create a professional looking résumé. Design a letterhead by using lines and formatting text, add bullet points and columns, learn how to make indents and set margins. By the end of the class you will understand the MS 2010 Word Tool Bar which will help you with all your documents (résumé, cover letter, business letter and more).

Great Résumés Get Interviews!

Customization has never been more important. Learn how to target your résumé to match the requirements of a specific position listed in a job lead. Get noticed. Tips and techniques will be discussed and a résumé will be formatted.

PAPER, PAPER, PAPER!

Do you know how important it is to fill out the application properly? This will be addressed. Participants will also learn how to write a cover letter and a thank you letter/note. Employers expect a cover letter! Learn how to create a cover letter that highlights your specific qualifications and helps you stand out from the crowd.

Interviews that SHINE! Part 1

Fear of interviews suggests lack of preparation. This session will teach interview techniques and how to answer those tough questions. A booklet with practice questions and answers will be provided. Knowing HOW to do an interview won't get you hired because it takes practice in order to be good at it. Part 2 allows for practice time and feedback.

Interviews that SHINE! Part 2

After preparing for the interview, it takes practice to master it. Build confidence with other job seekers as you practice your interview techniques. Learn what you did well and learn what needs improvement. Offer and receive constructive feedback. Practice in this classroom environment before you go out for that critical interview. It is the interview that gets you the job, not your résumé.

JOB CLUB - 10am Fridays Attend Until You Get Hired!

This is a great opportunity to network, establish job search goals, plan and make a job search TO DO list, share the latest job leads, give and receive motivation and inspiration in a warm and friendly environment. Coffee and donuts are provided to all who attend. Check Job Center Calendar.
